Mangesh Bhosale

UI/UX Designer, Front-End Developer

About me

I am a Designer and Front-End Developer driven by a passion for crafting solutions for web and mobile platforms. I love to solve problems through design thinking and deliver great user experiences. I bring empathy, passion and commitment to my work.

With a robust background spanning over 4 years in the field of design, I've honed my skills through independent projects as well as with collaborative teams. I come from a computer engineering background and have mastered my skills in front-end development.

A desire to achieve simple, minimal and functional products keeps me push myself further. I believe UX is a soul of a product.

Work

Product Designer
Gymshim (Sweatbath Technologies Pvt. Ldt.)
(**Full time-** Aug. 2018 to Jul. 2020. **Freelance-** Aug. 2020 to present)

As the Product Designer at Gymshim, I play a critical role in shaping the design and user experience of our products. In my role, I oversee the entire design lifecycle, from ideation to prototype, wireframing to visual design, and product documentation to design handoff. I work closely with our developer teams, ensuring our platform is intuitive, user-friendly, and visually appealing, all while meeting the needs of our users. With a focus on delivering results, I utilize an agile UX process to ensure efficient design iterations and a seamless user experience.

Projects with Gymshim:
Trainer App - iOS & Android App.
Facility Booking Management System - Web App.
Expense Management System - Web App.
SMILE - Mobile App & Web App.
Workout Charts - Mobile App & Web App.
PT Payroll - Web App.
White Label Apps - Mobile App.
GOS Newsletter - A monthly performance newsletter to gyms.
Gymshim Sales Bot - A tool to capture enquiries on social media.

Freelance Projects
Kande-Pohe Matrimony - Website.
Lawyer Document-Inventory Management - Web App.
iTekWizdom - Website
Trainer Collective - Website.
MRK Agro Traders - Android app.
